

### DESCRIPTION

It is specially formulated to easily and quickly remove gum, sludge, grease and varnish deposits. Use as often as necessary to keep carburetor clean.

### BENEFITS

- Cleans carburetors, chokes and PCV Systems.
- Removes gum, sludge, grease and varnish.

### HOW TO USE

Remove air cleaner and start engine. Spray in bursts inside carburetor throat and on all moving parts. Accelerate engine from time to time to hasten removal of gum and varnish. Engine may sound rough as gum and varnish are removed. Replace air cleaner and accelerate engine to completely clean out of gum and varnish.

- With ignition off, spray all moving choke parts and more manually to free from accumulated dirt and gum.
- While engine is off, disconnect crankcase side of PCV valve. Spray in to open end. Start engine and spray again to completely flush valve. Reconnect valve fittings.

### PROPERTIES

S.No	Properties	Units	Specification
1	Specific gravity @ 68 ° F	-	N/A
2	Flash Point	° F ° C	< 0 < -17.8
3	Boiling Point	° F	150
4	Water Solubility	-	-

### PACKING INFORMATION

- Packing** - Aerosol Can / 283 gms / 12 nos / Secondary box
- Storage** - Do not puncture or incinerate. Store in Room Temperature Keep away from Direct UV
